

Going Hard Crank Box

<p>Atomic Hardz Crank 38 deep diver - purple shadow HC38D-PS</p>		<p>Depth: 1 - 2m. Buoyancy: Floating. Size: 38mm, Weight: 4.0g, Action: Wide Wobbling & Rolling. Atomic Bream Crank Double Deep features an all new profile designed to attract the wariest of fish holding around deep structure. An oversize bib which is super strong and able to handle the pressure of repetitive casting. Capable of almost two metres depth, the double deep still maintains a wide wobble and roll action.</p>
<p>Atomic Shad 40 Deep Diver NO.005 Ghost Gill Brown HBS40D-GGB</p>		<p>Depth: 0.8-1m. Floation: Suspending. Length:40mm. Weight: 2.7g. Action: tight wobble & roll. Deep swims similar to Bream Shad Mid, but is capable of diving half a meter further. Narrower silent profile to attract hard to temp fish or fish feeding on smaller profile baits. Crank it down to the desired working depth and retrieved with a slow steady wind or briefly pause to tempt wary feeders. Perfect in the estuary for bream.</p>
<p>Atomic Shad 40 Deep Diver NO.015 Purple Shadow HBS40D-PS</p>		<p>Depth: 0.8-1m. Floation: Suspending. Length:40mm. Weight: 2.7g. Action: tight wobble & roll. Deep swims similar to Bream Shad Mid, but is capable of diving half a meter further. Narrower silent profile to attract hard to temp fish or fish feeding on smaller profile baits. Crank it down to the desired working depth and retrieved with a slow steady wind or briefly pause to tempt wary feeders. Perfect in the estuary for bream.</p>
<p>Atomic Shiner 45 Deep Diver NO.002 Matte Ayu</p>		<p>Suspending, 45mm, 3.3g, Tight Wobble, 0.6m-1.2m deep. It has a tight wobble and will compliment the other estuary lures already in the Atomic Hardz range. The smallest of the range at 45mm is perfect for bream and bass in estuaries.</p>
<p>Austackle Sakana SD40F - Black Night</p>		<p>Length: 40mm, Weight: 5 grams, The classic shallow crankbait. Sporting the same stable action and fat tail shake as the deeper Sakanas, with a diving limit of 0.9m. A great choice for weed flats, or along the top of structure like sunken racks, rubble and reef. UV colours and solid rattle make this lure hard to miss.</p>
<p>Austackle Sakana SD40F - Green Goblin</p>		<p>Length: 40mm, Weight: 5 grams, The classic shallow crankbait. Sporting the same stable action and fat tail shake as the deeper Sakanas, with a diving limit of 0.9m. A great choice for weed flats, or along the top of structure like sunken racks, rubble and reef. UV colours and solid rattle make this lure hard to miss.</p>
<p>Berkley - 3B Fat Dog - Cerberus</p>		<p>Floating, Shallow diving, 38mm, 4g, depth: 0.5m, hook Size #14</p>
<p>Daiwa Presso Rollin Crank Jr Black Sniper</p>		<p>Depth: 1m. Length: 27mm. Weight: 2g, The Junior produces a high vibration and tight action crash diving down to a metre quickly. Designed and tuned for maximum casting performance, swimming deeper and easier than most lures of the same size.</p>

<p>Ecogear CX 35HS Colour: 373</p>		<p>Depth: 2m. Length: 35mm, Weight: 3.4g, Action: tight shimmy. A balanced design allows the angler to perform many different techniques with its enticing action and rattle combination. The body design gives the angler the ability to prolong the duration of the retrieve at the required depth.</p>
<p>Ecogear SX 40 303</p>		<p>Depth: 1m. Buoyancy: suspending. Length: 40mm, Weight: 2.5g, Action: tight shimmy, Big brothers: SX 43F / SX 48F / SX 60F"</p>
<p>Ecogear SX 40 306</p>		<p>Depth: 1m. Buoyancy: suspending. Length: 40mm, Weight: 2.5g, Action: tight shimmy, Big brothers: SX 43F / SX 48F / SX 60F"</p>
<p>Ecogear SX 40 348</p>		<p>Depth: 1m. Buoyancy: suspending. Length: 40mm, Weight: 2.5g, Action: tight shimmy, Big brothers: SX 43F / SX 48F / SX 60F"</p>
<p>Gladiator Bingo Mini Crank deep 30mm #13</p>	<p>Colour 13</p> 	<p>Depth: 2m, Floating, Length: 30mm, Weight: 2.9g</p>
<p>Jackall Chubby 38F Brown Suji Shrimp</p>		<p>Chubby's have a tight, wide action that screams for attention. Whether you want to slow roll them over weed beds or stab and dart them among structure, Chubby's will convert lookers into scorers.</p>
<p>Kokoda Sprog Shallow Runner OG-T</p>		<p>Depth 1m. Length: 45mm, Weight: 5g. Action: tight shimmy, 3d epoxy eye, holographic colours, similar to Ecogear's SX40F, Great for bass, bream, perch, trout</p>
<p>Lucky Craft Pointer 48 DD SP Fantasy Moss</p>		<p>Depth 6-7 ft. The Pointer's large body produces a unique action when it is strongly jerked. Unlike the Staysee, which is subtler and hides its presence, this lure appeals strongly to them and throws them into a state of confusion and is the number one power bait in the Lucky Craft family.</p>
<p>Lucky Craft Pointer lure 48DD-SP Ghost Brown</p>		<p>Depth 6-7 ft. The Pointer's large body produces a unique action when it is strongly jerked. Unlike the Staysee, which is subtler and hides its presence, this lure appeals strongly to them and throws them into a state of confusion and is the number one power bait in the Lucky Craft family.</p>

<p>Prolure D36 Crank - Ghost Shrimp</p>		<p>Depth 1.6 - 2.0m, Weight 4.1g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Prolure D36 Crank - Matt Black</p>		<p>Depth 1.6 - 2.0m, Weight 4.1g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Prolure D36 Crank - Tiger Shrimp</p>		<p>Depth 1.6 - 2.0m, Weight 4.1g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Prolure S36 Crank - Matt Black</p>		<p>Depth 0.4 - 1.2m, Weight 3.8g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Prolure S36 Crank - Phantom</p>		<p>Depth 1.6 - 2.0m, Weight 4.1g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Prolure S36 Crank - Tiger Shrimp</p>		<p>Depth 0.4 - 1.2m, Weight 3.8g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Prolure S36 Crank - Violet Shrimp</p>		<p>Depth 0.4 - 1.2m, Weight 3.8g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Prolure SF62 Pencil - Tiger Shrimp</p>		<p>Depth 0.4 - 1.2m, Weight 3.8g, Length 36mm, buoyancy: floating, Hook size: #14, The 36 Crank is brilliant around natural and artificial estuarine structures</p>
<p>Savage 3D prey hard body lure - colour - Ayu</p>		<p>Depth: 2-5ft. Buoyancy: suspending. Size: 50mm, Weight: xg, Action: savage 3D prey hard body lures, Steel ball long cast system, ABS body construction, BLN tournament trebles, Forged stainless steel split rings,</p>

<p>StarloPro Crusty Baby 30mm - DW012</p>		<p>Depth: shallow running. Buoyancy: floating. Size: 30mm, Action: Crusty Baby range consists of tiny, ultra-finesse diving plugs. These shallow running divers imitate crustaceans like crabs, shrimps and prawns, as well as small baitfish, and were especially designed to appeal to extra finicky bream in salt and brackish water. Will also catch whiting, flathead, redfin perch, trout, bass, sooty grunter, jungle perch.</p>
<p>StarloPro Crusty Baby 30mm - BE004</p>		<p>Depth: shallow running. Buoyancy: floating. Size: 30mm, Action: Crusty Baby range consists of tiny, ultra-finesse diving plugs. These shallow running divers imitate crustaceans like crabs, shrimps and prawns, as well as small baitfish, and were especially designed to appeal to extra finicky bream in salt and brackish water. Will also catch whiting, flathead, redfin perch, trout, bass, sooty grunter, jungle perch.</p>
<p>Strike Pro Pygmy II Red eye</p>		<p>Depth: 5ft. Buoyancy: suspending. Size: 40mm, Weight: 3g, Action: slow swaying. Strike Pro Pigmy fishing lures are a rounded Gudgeon style minnow profile fishing lure. Also known as Strike Pro Pigmy II. Discontinued colour.</p>
<p>Strike Pro Pygmy II 130VS</p>		<p>Depth: 5ft. Buoyancy: suspending. Size: 40mm, Weight: 3g, Action: slow swaying. Strike Pro Pigmy fishing lures are a rounded Gudgeon style minnow profile fishing lure. Also known as Strike Pro Pigmy II</p>
<p>Strike Pro Pygmy II JU001G</p>		<p>Depth: 5ft. Buoyancy: suspending. Size: 40mm, Weight: 3g, Action: slow swaying. Strike Pro Pigmy fishing lures are a rounded Gudgeon style minnow profile fishing lure. Also known as Strike Pro Pigmy II</p>
<p>Strike Pro Pygmy II 346G</p>		<p>Depth: 5ft. Buoyancy: suspending. Size: 40mm, Weight: 3g, Action: slow swaying. Strike Pro Pigmy fishing lures are a rounded Gudgeon style minnow profile fishing lure. Also known as Strike Pro Pigmy II</p>
